

Capstone Project Proposal

Project Title: E-Commerce Automation Testing Using Playwright

Website Name: Automation Exercise

Website URL: <https://automationexercise.com>

Objective: The main objective of this project is to automate the testing of an e-commerce website using Playwright. The project will validate important functionalities like authentication, product management, cart functionality, checkout workflow, user profile management, shipping address handling, customer support, and API testing.

Services Included:

No.	Service
1	Authentication
2	Product
3	Cart
4	Checkout & Order
5	User Profile
6	Shipping Address
7	Customer Support
8	API Testing

Total Planned Test Cases: 120

Conclusion: This project will provide a complete automation testing framework for an e-commerce application using Playwright with organized test cases, reporting, and cross-browser execution.
